Pros

- Thinking tokens
- High quality
- Creative
- Stable
- Free

Cons

- Slow (long inference time)
- Often time outs in Cursor AI
- Sometimes overthinks when debugging

Pros

- Good integration with Cursor AI
- High quality
- Creative
- Stable

Cons

- Expensive
- No thinking tokens
- Not as good at debugging as Claude Sonnet

Pros

- Follows the instructions well
- Very fast!
- Free

Cons

- Less creative
- No thinking tokens (in Cursor)
- Needs very specific instructions

Pros

- Great at debugging
- Fast
- Safe bet

Cons

- Less creative than reasoning models
